

**JOHN PAUL II INSTITUTE
FOR STUDIES ON MARRIAGE AND FAMILY
at The Catholic University of America**

Michael J. McGivney Scholarship Program

Responsibility for securing the necessary financial resources rests with the student. Resources for a student's support include: a) earnings in part-time work; b) summer earnings (the Institute normally expects a student to provide at least \$1,000 from summer employment); c) grants from churches and other sources; d) savings (students are expected to use their savings and other liquid assets for their educational expenses); e) earnings of the spouse (when a student is married but has no children) are to be considered as a part of the total family income; and f) support by family and friends.

The Knights of Columbus provides a limited number of complete and partial scholarships in memory of its founder, Reverend Michael J. McGivney. These scholarships are awarded using competitive standards aimed at identifying those students with academic promise. To apply for a scholarship, you must provide the following information and write a short (200 words or less) essay—if you are a first-time applicant—on “Why you should be considered for a McGivney Scholarship.” Please attach your essay to this scholarship application form.

Important details Scholarship deadline is January 31 for the coming academic year.

All scholarship recipients must study full-time.

Maximum coverage: MTS applicants four semesters; STL applicants four semesters; STD two semesters; PHD ten semesters.
