Direct Unsubsidized Stafford Loan—A federally guaranteed loan that is not based on financial need. Interest will accrue from the time the loan is disbursed to The Institute. You do not have to make interest or principal payments until six months after graduation, you drop below half time status or cease enrollment, but doing so can save you money. If you choose not to pay the interest while you are in school, the interest is capitalized when the loan enters repayment. The interest rate is fixed at 8.08% for loans first disbursed on or after July 1, 2024 and before July 1, 2025. There is a 1.057% loan origination fee charged and taken off the top of the loan prior to disbursement to the school for loans first disbursed on or after October 1, 2020. It is recommended that students make the interest payments while they are in school to avoid the interest being capitalized and added to the principle of the loan.

**** Please note the above interest rates and origination fees are subject to change and this document will be updated with new rates upon their release by the Department of Education. For up-to-date rates, please go to <https://studentaid.gov>. ****
